

Fares Fuad

fares.allefdawi78@gmail.com | +962 795 032 850 | Amman, Jordan

Professional Summary

Experienced Senior Software Engineer specializing in front-end development with React.js, Next.js, and TurboRepo. Proven ability to lead development teams, collaborate with cross-functional partners, and contribute to strategic decision-making. Skilled in building responsive, user-friendly web applications.

Experience

Mobasher Auctions | Senior Software Engineer

Mar 2025 – Present, Amman, Jordan

- Leading front-end development of Mobasher's auction and direct sale ecosystem using Next.js 15, React 19, and TurboRepo.
- Built dynamic multi-step form flows (Real Estate, Cars, Movables) with JSON-driven configuration, validation, and conditional logic.
- Developed custom UI library with TailwindCSS/ShadCN, ensuring RTL/LTR support, localization, and design consistency.
- Implemented cross-domain authentication/session bridging and advanced media gallery components (images & videos).
- Mentoring developers and enforcing code quality through CI/CD, code reviews, and GitHub workflow best practices.

ULA | Senior Software Engineer

Oct 2024 – Mar 2025, Amman, Jordan

- Created a scalable assessment system for ULA's learning platform using React.js and Next.js.
- Packaged the assessment logic as a standalone module in a TurboRepo monorepo for easy reuse across projects.
- Developed and integrated multiple question types (MCQ, True/False, Match-the-Columns, Drag & Drop, Fill-in-the-Blank), enabling highly flexible exam and quiz experiences.

Arab Center for Research and Policy Studies | Software Engineer

Jan 2024 – Sep 2024, Amman, Jordan

- Developed and maintained front-end components using Vue.js 2 and Vuetify 2 for a high-traffic wiki dashboard.
- Implemented GraphQL to streamline data fetching and enhance application performance.
- Played a key role in the wiki project by creating and optimizing the back-office (dashboard) for seamless user experiences.
- Collaborated with DevOps and design teams to ensure smooth deployments and user-friendly interfaces.
- Led a team of ~5 developers: assigning tasks, mentoring, and conducting code reviews to uphold quality standards.

Majid Al Futtaim | Software Engineer

Jun 2021 – Jan 2024, Amman, Jordan (Remote)

- Built React.js web applications and React Native mobile apps.
- Developed the Ski Dubai mobile application using React Native, delivering a seamless user

Sep 2019 – Dec 2019, Jordan

Education

Jordan University of Science and Technology | Bachelor's Degree, Computer Science
2015 – 2019

Skills

- React.js
- Next.js
- GraphQL
- TypeScript
- Vue.js
- TurboRepo
- Front-end Development (general)
